

Perennials for Shade

HEAVY SHADE GARDEN

Hosta Undulate
Athyrium Niponicum 'Pitcum' (fern)
Cimicifuga Racemosa
Thalictrum Delavayi
Astilbe X Arendsli
Polemonium Caeruleum
Doronicum Caucasicum
Geranium Cinereum
Heuchera Micrantha
Pulmonaria Saccharata
Hosta X Tardiana
Primula X Polyanthus

LIGHT SHADE GARDEN

Anemone X Hybrida
Lobelia Cardinalis
Aquilegia X Hybrida
Baptisia Australis
Geranium X Magnificum
Astilbe Simplicifolia
Myosotis Sylvatica
Cerastium Tomentosum
Dicentra Exima
Heuchera Sanguinea
Corydalis Lutea
Viola Labradorica

WOODLAND SHADE GARDEN

Rodgersia Pinnata
Darmara Peltatum
Kirengeshoma Palmata
Aruncus Dioicus
Cimifuga Racemosa
Hosta Plantaginea
Athyrium Felix-Femina (fern)
Tricytris Hirta
Osmunda Cinnamomea (fern)
Phlox Divaricata
Sanguinaria Canadensis
Heucherella Tiarelloides

DRY, WELL DRAINED SHADE GARDEN

Matteuccia Struthiopteris (fern)
Polygonatum Odorata
Tiarella Wherryi
Viola Odorata
Pachysandra Procumbens
Chrysogonum Virginianum
Dicentra Exima
Adiantum Pedatum (fern)
Luzula Sylvatica
Asarum Canadense
Actaea Rubra

WET OR BOGGY SHADE GARDEN

Anemone X Hybrida
Artemesia X 'Powis Castle'
Adenophora Lilifolia
Bergenia Cordifolia
Aster Divaricatus
Lamiastrum Galeobdolon
'Variegatum'
Epimedium Rubrum
Liriope Spicata
Filipendula Vulgaris
Ajuga Pyramidalis
Campanula Carpatica
Anemone Sylvestris

HEAVY SHADE: The emphasis in this garden is on foliage and texture plants which grow well in deep shade.

LIGHT SHADE: This garden can tolerate more light and features more flowering plants.

WOODLAND SHADE: Planting under mature tree canopy with filtered light, well drained, moist, humus soil.

WET OR BOGGY SHADE: The bed is in the low point of the garden, perhaps adjacent to a pond or stream. Soil in this garden is constantly moist to wet with moderate to heavy shade.

DRY, WELL DRAINED SHADE: This bed is on a slope or in very sandy soil with summer drying. The shade is light to moderate.
